

CS231n: Convolutional Neural Networks for Visual Recognition

Assignments

When to Hand in

The assignments are due at midnight. The due dates for all assignments are on the [syllabus](#) page.

Late Policy:

- You can use 7 late days, with up to 3 late days per assignment.
- Once you have used all 7 late days, penalty is 25% for each additional late day

Where to Hand in

You will hand in the assignments electronically through [CourseWork](#). For submission instructions follow the steps listed on the appropriate assignment page. For example, detailed assignment #1 instructions can be found [here](#).

Do not email us your assignments.

Collaboration Policy

- Study groups are allowed but we expect students to understand and complete their own assignments and to hand in one assignment per student.
- If you worked in a group, please put the names of your study group on your assignment on top.
- Finally, we expect students to not look at implementations online. Just like all other classes at Stanford, we take the student Honor Code seriously.
